

## PROLIFE FACTS

What is the truth about abortion? The old saying: "A picture is worth a thousand words" is the key. Thanks to the Internet and sophisticated animation techniques we can see what abortion involves. In 2016, former abortionist Dr Levatino, updated his website [www.abortionprocedures.com](http://www.abortionprocedures.com) with an animation outlining what really occurs in an abortion, so as to enlighten people.

Dr. Anthony Levatino is a board-certified, obstetrician-gynecologist with 40 years of medical experience. A physician and lawyer, he taught as associate professor of OB-GYN at Albany Medical Center. He also served as the Medical Student Director and Residency Program Director. Early in his career, Dr. Levatino performed over 1,200 abortions in the first and second trimesters.

Dr. Levatino practiced obstetrics and gynecology in Florida, New York, and currently practices in New Mexico. As you can judge, he is an expert witness, and the animation featured on his website has also been peer-reviewed for accuracy. Dr Levatino is now pro-life and his website serves to tell the truth and answer the questions people ask.

If you have ever wondered what "termination of pregnancy" involves, click on [www.abortionprocedures.com](http://www.abortionprocedures.com). However, please note that Voice for Life recommends this website for adults only.
